

Exceptional Tree Register-Tree Assessment Form

Tree Number: 163
Botanical Name: *Phoenix canariensis*
Common Name: Canary Island Date Palm
Origin: Exotic
Nomination Type Single Nomination
Diameter at Breast Height (cm): 80
Tree Protection Zone (m): 9.60
(Radius from centre of trunk)

Address: 120W-126W Toorak Road, SOUTH YARRA VIC 3141
Location: Simonds Hall front of property
Height (m): 14
Width (m): 6
Number of Trees: 1
Diameter at Root Flare (cm): 89
Structural Root Zone (m): 3.15
(Radius from centre of trunk)
Melway: 2L D4
Easting: 322514.59354
Northing 5810275.2236

Exceptional Tree Register-Tree Assessment Form

Tree Number: 163

Botanical Name: *Phoenix canariensis*

Health: Good

Structure: Good

Useful Life Expectancy: 21-30 years

Approximate Age: 100+ years

Tree Defects: None

Risk Assessment

Probability of Failure: Low

Failure Size of Part: 26-100mm

Target: 3. Stationary cars

Risk of Harm: 1/ 59000000

Risk Category: Very low

Works: No works

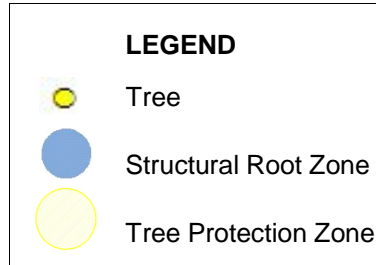

Growing Condition The tree is growing in gravel.

Site Suitability: The tree is located in open space.

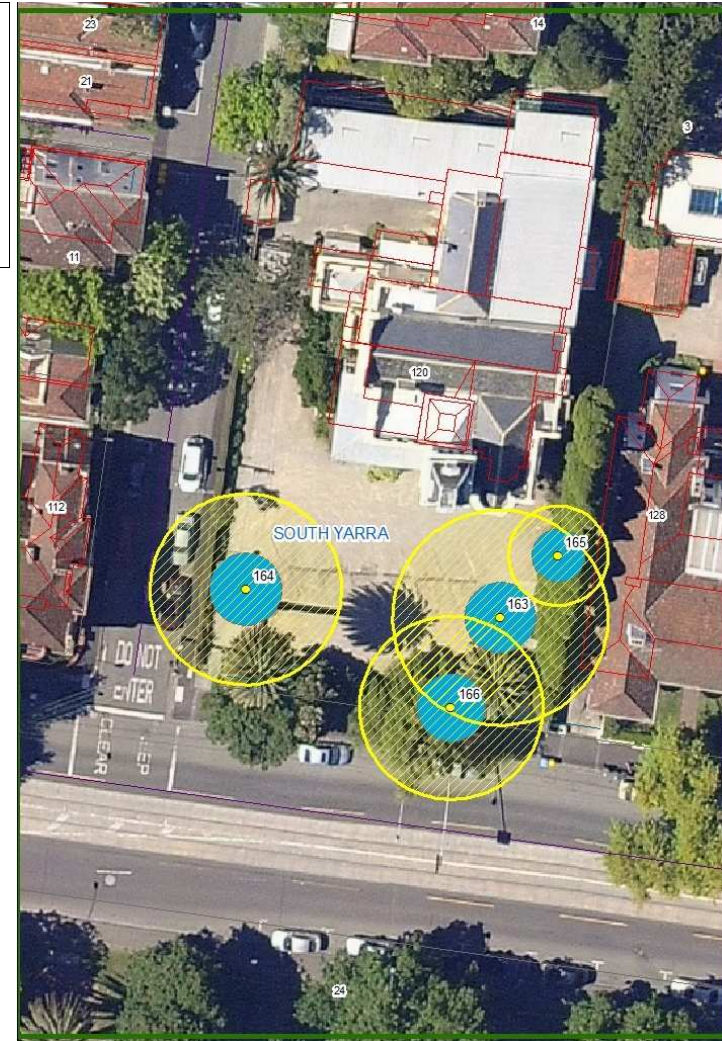

Significance: Historic Value, Aesthetic Value, Particularly Old, Location of Landscape Context

Statement: This is a large specimen in good condition, particularly in context with its built surrounds. It is one of a pair that dominates the entrance to the heritage listed Simonds Hall.

Exceptional Tree Register-Tree Assessment Form

Tree Number: 165
Botanical Name: *Cupressus sempervirens*
Common Name: Italian Cypress
Origin: Exotic
Nomination Type Group Nomination
Diameter at Breast Height (cm): 37
Tree Protection Zone (m): 4.44
(Radius from centre of trunk)

Address: 120W-126W Toorak Road, SOUTH YARRA VIC 3141

Location: Simonds Hall front of property

Height (m): 17

Melway: 2L D4

Width (m): 4

Easting: 322519.77252

Number of Trees: 11

Northing 5810280.757

Diameter at Root Flare (cm): 45

Structural Root Zone (m): 2.37
(Radius from centre of trunk)

Exceptional Tree Register-Tree Assessment Form

Tree Number: 165

Botanical Name: *Cupressus sempervirens*

Health: Good

Structure: Good

Useful Life Expectancy: 60+ years

Approximate Age: 100+ years

Tree Defects: None

Risk Assessment

Probability of Failure: Low

Failure Size of Part: 26-100mm

Target: 3. Stationary cars

Risk of Harm: 1/ 59000000

Risk Category: Very low

Works: No works

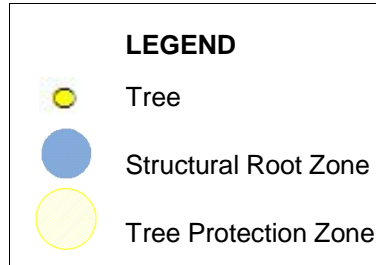

Growing Condition The trees are growing in a narrow garden bed with compacted ground on both sides.

Site Suitability: This row of trees are close to a building and may cause damage in the future.

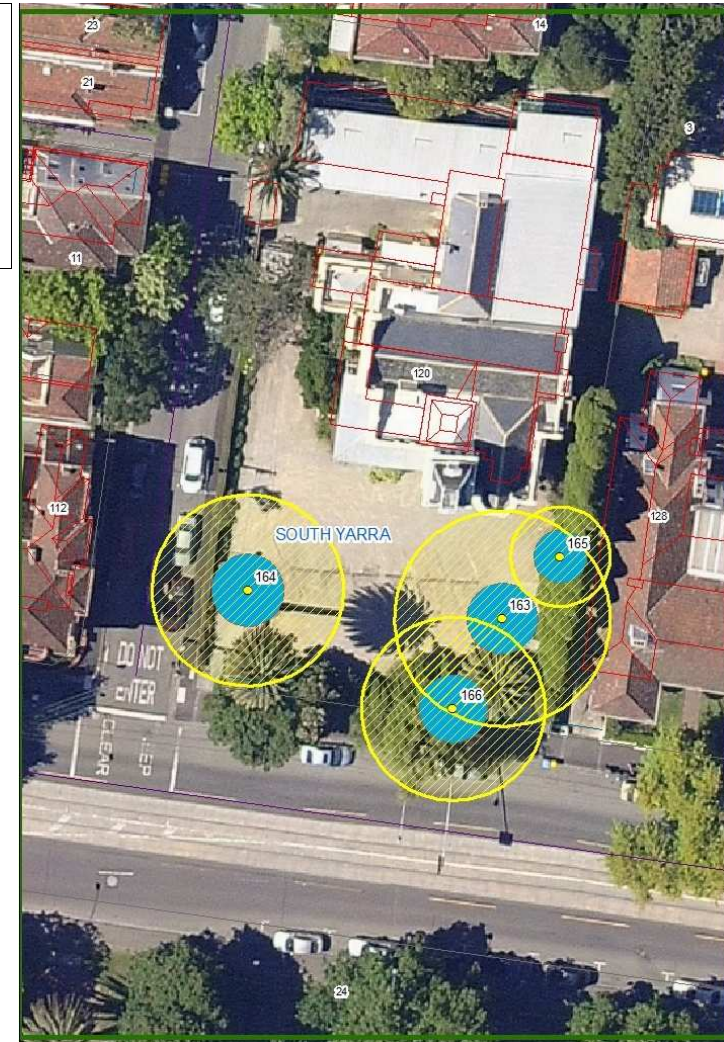

Significance: Outstanding Size, Historic Value, Aesthetic Value, Particularly Old, Location of Landscape Context

Statement: This tree forms part of a row of cypress trees which are in good condition and likely to have been part of the original plantings of the heritage listed Simonds Hall.
