MELBOURNE VIC 3001

Goodrest - TP2013-1054

We understand that the school has amended its application to add five or six carparking spots on the south side of Toorak Road West opposite the development and that this is the only change of any significance.

In the first place, it seems extraordinary to us that this should be proposed by the school as a solution having regard to the enormous risks involved in parents who park in those positions getting pre-school children across Toorak Road safely. As you are well aware from all of the traffic evidence already submitted, this is an extraordinarily busy street particularly in the mornings and the danger created by such activities seems to us to be unjustifiable.

However, those additional carparking spaces do not change the fundamental defect in the entire application which is the unsatisfactory and unworkable procedure for dropping children off and picking them up and the potential unconscionable impact upon nearby residents and in particular those in Leopold Street.

Accordingly, we continue to express our strong objection to this application which in our view should be rejected.

Yours faithfully

Michael Butcher
President
Melbourne South Yarra Residents Group Inc
